

Alex Rivera

Senior Full-Stack & AI Engineer

PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience architecting high-performance Python FastAPI microservices and modern React frontends. Expert in LangChain, Groq LLMs, structured extraction pipelines, PostgreSQL, and Docker deployment.

TECHNICAL SKILLS

Python, FastAPI, React, Tailwind CSS, LangChain, Groq LLM, PostgreSQL, Docker, SQLAlchemy, Git, REST APIs, CI/CD

WORK EXPERIENCE

Senior AI Solutions Lead — TechFlow Analytics (2023 - Present)

- Designed and built asynchronous structured JSON extraction services using LangChain and ChatGroq LLM.
- Engineered real-time candidate screening dashboards in React, Tailwind CSS, and Vite.
- Optimized PostgreSQL queries and SQLAlchemy ORM models, reducing API latency by 45%.

Full-Stack Software Engineer — Nexus Cloud Systems (2020 - 2023)

- Developed high-throughput FastAPI web applications handling over 10M requests monthly.
- Implemented responsive UI components and state management with React and TypeScript.

EDUCATION

- B.S. in Computer Science — University of California, Berkeley (2020)
